# WEDDINGS

IT'S YOUR WORLD - LET'S CELEBRATE!

## ABOUT OUR WEDDINGS:

The weddings we have done are always with a very fun and amazing group of people. They are different in that they don't follow the typical structure of weddings, which is why we are a perfect fit. We aim to provide a very unique experience at our boutique venue. The benefits that wedding parties enjoy is the flexibility of our venue, giving a cool vibe and a more fun and free experience. The food is spectacular, and the atmosphere makes it all the more memorable. We have a highly trained staff and it's family run, so you have the special personal touch and attention. We are very flexible in terms of arrangements and how you'd like to customize your event. We have our own food truck which is Greek Fried Dough and Crepes.

We are about providing uniqueness and a dimensional experience. That's what we do. Unique food, services, and experience. We have a staff of 65+ people who work at the restaurants/drive in everyday and so we cover all the angles and have the abilities to throw any type of wedding depending on your budget. While the drive in is seasonal in nature in our area, we have much experience in the hospitality industry as our company also runs a chain of 12 other restaurants in the area, so food is our thing too, and movies, and everything involving entertainment.

We restrict ourselves to just 5 weddings a season. We have availability for the 2017/2018 seasons but we do restrict to just five because we want to keep it as unique and special as possible and also don't want to disappoint movie goers by being closed often, as we are wildly popular and do sell out every weekend. For us to shut down, we would need to be compensated with an exclusivity charge.
